Grandview Re-Entry Plan | Phase I
Confidence in our Community

Grandview’s mission and purpose remain stronger than ever during these challenging times. When we left our campus on March 13th, we shifted to a remote learning plan in the context of a global emergency. **We are no longer in response mode for a sudden crisis.** Over these past months Grandview has consulted with experts worldwide, updated training for staff, and prepared our campus for a post-COVID world.

We have developed, and continue to refine, our industry-leading re-entry plan to provide both safety and learning continuity for all of our students.

Re-Entry Planning
The Process

In consult with Grandview's re-entry task force, which includes medical professionals and local officials, Grandview is able to execute the physical campus modifications needed to support students safely returning to campus in the fall of 2020.

1. ON CAMPUS LEARNING
   Your child(ren) will begin the 20-21 academic year on campus with the expectation that specific health and safety procedures will be required. In the event that local authorities close schools or initiate a stay-at-home-order, students will transition to remote/blended learning.

2. BLENDED LEARNING
   Your child(ren) will continue with Grandview's blend of synchronous (live instruction) and asynchronous (teacher directed) remote learning with regular modifications to ensure that students are receiving a well-balanced and academically fulfilling experience.

3. ONLINE LEARNING
   Grandview Online provides the highest level of flexibility as your child(ren) will work independently and asynchronously through their academic courses.

Campus is scheduled to open on **August 19th** unless Authorities declare schools to remain closed. Administration recognizes that some families may not be comfortable with their child(ren) returning at this time and has developed three different re-entry options.
Life on Campus
Expect the Same

Despite global uncertainty -- one certainty remains -- students learn best in a community of caring adults who know them and understand their needs. The core of Grandview's community will not change.

ATHLETIC OPPORTUNITIES
Life on Campus
Updated as CDC/DCF Recommendations Evolve

- Considerations for testing/health screenings for students, faculty, and staff before entering building
- Medical personnel will be on campus during Phase I
- Lunch will take place outside when weather permits or in cohort classrooms - Only food provided by Grandview will be permitted on campus
- Families will be responsible for keeping a contact tracing log
- Staggered schedule for drop-off and pick-up
- The use of masks as mandated by health authorities
- Each student will be required to quarantine for two weeks prior to returning to campus and following illness
- Athletic offerings will be determined by FHSAA recommendations and requirements
- Enhanced sanitizing and cleaning processes
- Modifications to dress uniform due to increased time spent outdoors
- Parents and visitors will not be permitted in the building
- Outdoor space will be utilized to its full potential for instructional and social purposes
Introducing Cohorts

An educational cohort is a group of students working through curriculum and learning experiences together. Cohort design is specific to the overall educational purpose, research supporting effective collaboration, physical location, developmental capacity, and desired outcomes.

Dissecting the Cohort

- Per current CDC/DCF guidelines, cohort sizes will consist of 9 students
- One teacher will serve as the cohort lead teacher. The cohort will be housed in a single classroom
- Cohorts may be multi-age at all divisions
- Rather than students transitioning from class to class, teachers will now transition from cohort to cohort

Students will have experts/professionals zoom into class

Cohorts may include students choosing the blended learning model

Grandview Re-Entry Plan | Phase I

CAMPUS OPENS AUG. 19
Structuring the School Day

As noted, the Re-entry Learning Plan differs from the Emergency Remote Learning Plan in significant ways. The re-entry plan is designed for expected COVID waves where on-campus and off-campus learning can flow seamlessly.

Curriculum and projects are planned in 2-3 week modules with kits to accompany or supplement off-campus learning. Each family may elect (for each student) their preferred learning/instruction model.

Comfort in Flexibility

Grandview is responding to these uncertain times with an emphasis on flexibility, mindfulness, and understanding while prioritizing an extraordinary academic experience. We are creating individual options for every family to ensure they feel safe and engaged in our unparalleled community.

- **100% ON-CAMPUS LEARNING**
  - We can customize a combination of these options

- **100% BLENDED LEARNING**
  - We can customize a combination of these options

- **100% ONLINE LEARNING**

Families that have re-enrolled will receive more information regarding cohort details and personal learning plans in early summer.

Grandview Re-Entry Plan | Phase I

CAMPUS OPENS AUG. 19
Comfort in Community

Belonging to a community is essential for social and emotional well-being. Even though the way we gather, share, and celebrate may change, Grandview is dedicated to ensuring our values continue to thrive. Just as we were able to joyfully celebrate our seniors in a new way, all returning and new students will continue to enjoy Grandview's signature traditions upon our return.

Signature Events and Traditions Will Remain

We cannot wait to celebrate your child(ren)’s achievements in a safe and responsible way!

Preparing for Interruptions

Following the recommendations from our re-entry task force and trends from past pandemics, Grandview is preparing for waves of interruption to on-campus learning. In the event our local community experiences a spike in COVID-19 cases and an interruption of physical operations occurs, a shift to blended/remote learning will happen immediately.

If the physical campus closes and Grandview transitions to blended learning, families will be extended financial credit towards fees coinciding with being on campus (lunch and on-campus security).

Students will be equipped with a remote-learning kit in the event on-campus learning transitions to the blended model. Books and supplies will be readily accessible in the event an interruption occurs.

We recognize the needs of young children include the requirement of supervision and care in addition to their learning. In the event campus closes, we will prioritize the on-campus experience for our youngest students.

INFRASTRUCTURE 4%
- Learning Platforms
- Communications
- Technology

Tuition covers the continuity of learning and community, which exist on or off campus. We have been fortunate to provide a robust remote learning experience during this time of crisis.
Digital Platforms

RenWeb will continue to be our school's main information system. Parents and students can access grades, calendars, announcements, and more.

Google Classroom is not new for Grandview students in grades 4-12 and they are accustomed to managing their work, discussions, and assignments through this platform. All class assignments, videos, and announcements will be housed here.

Grandview developed a partnership with Lincoln Learning Solutions over 7 years ago, which offers teachers, parents, and students all of the tools necessary for success—a rigorous online curriculum, a robust learning management system, accompanying training and support, and more.

For students in Early Childhood - Grade 5, SeeSaw will be your online platform for viewing video lessons and uploading your student's documentation of work (pictures, videos, etc). Questions about SeeSaw should be directed to your child's teacher.

Google Meets will be one of Grandview's primary platforms for LIVE (synchronous) instruction. Google Hangout/Meets can be joined directly from the calendar invite or class link sent from your teacher.

Zoom is a video conferencing platform that can be used to provide LIVE (synchronous) virtual class meeting space similar to the Google Meets/Hangouts.
Administration

Flexibility and transparency is of the utmost importance and we want to encourage you to contact our team if you have any questions or concerns about how we are serving your family. Grandview is here to provide learning continuity for your child(ren), and to provide a strong and safe community for your entire family.
