## Academic Advancement

Academic Advancement takes Grandview's personalized education to the next level by providing students with small(er)-group and/or 1:1 instruction. Students will explore and develop specific strategies, techniques, and methods that work for their personal learning style. The small group or 1:1 instruction provides students the opportunity to focus on specific areas of growth and reach identified learning goals. Regular progress meetings are scheduled with the family to ensure learning goals are being reached and updated.

In some cases, the academic team will require or recommend services for students needing additional support. Families do have the opportunity to request services at anytime.
